Be it above or below the surface, exploring the unknown is, by nature, unpredictable. To unve its mysteries, two things are needed. A steadfast willingness to push one's limits slways further. And a strong, unwavering ally to fuel your confidence. Over the past 70 years, we have constant perfected the Submariner to make it the tool watch of reference for the numers of the marin orld. Yet you need not swim 300 meters deep, or endure 30 hars of pressure, to field-test it works. Yet you nerve not swim soot merres areny, or ensure so trans or pressure, to meastness i Diving into the unknown can be an exhibiting experience, in any circumstance. All it really takes is to look beyond the surface. The Submariner.

India walking the extra

mile in Davos India's strategy at Davos in 2022 is significantly different from previous years. The Indian delegation led by Commerce and Industry Minister Physic Boyal is making extra efforts to improve internal coordination. The government wants that the delegation speak in one voice during discussions with various global investors mainly on issues like India's stand on Ultraine, gas purchase, wheat coprds and PU schemes. To underline the recent steps taken by

maily on issues like helds' stand on Ukraine, gas purchase, when coports and PU3-shores. To underline the recent stages laken by the government to promote investments at a value at swell as the powernment to promote investments at a value at swell as the powernment to promote investments at a value at swell as the powernment to promote investment and the powernment to prome union mainteers. However, Mandhany and Hardres Stagh neutral band, Mahares - Marsula Mandhany and Hardres Stagh participating in the event. other nations. Several Indian CEOs as well as government leader feel that there is a strong need to focus on creating necessary infra

structure for fighting any future pandemic and also to effectively defeat the existing one. The government leaders and their associ

ates are also confident that India will be able to tell the world that

their approach towards the Ukraine crisis has been the most bal-anced, even as a vast majority of the world leaders are expected to

take on Russia strongly for waging the war. The unfolding politica situation in India in the run up to the Lok Sabha elections of 2024

and various state polls before that, would also be of keen interest for the global leaders.

Workforce being

crushed between

inflation & joblessness

sion in employment) in the count of the unemployed in April 2022 I 2022 also saw a 2.3 million increase in the count of those wh

ed that they were unemployed and were willing to work if wor made available to them but were not actively looking for employ

t. The count of these rose to 19.5 million in April 2022. The ag ure sector shed 5.2 million jobs in April. Part of this decline

of the wheat crop, and the consequent decline in wheat production. Wheat production is expected to have fallen by between 10 and 20

per cent this year because of intense heat wave. It is a very serious concern, and the Centre has already banned exports of wheat to

woid food insecurity of the country. Since the recent rise in CPI infl

tion was chiefly due to rise in prices of food articles, the wheat pro duction fall indicates that its prices will increase in near future which

may push up the prices of rice also due to shift in demand. The fur ther rise in inflation can thus not be ruled out.

India walking the extra

mile in Davos India's strategy at Davos in 2022 is significantly different from previous years. The Indian delegation led by Commerce and Industry Minister Physic Bogal is making extra efforts to improve internal coordination. The government wants that the delegation speak in one voice during discussions with various global investors mainly on issues like India's stand on Ultraine, gas purchase, wheat coprds and PU schemes. To underline the recent steps taken by

maily on issues like helds' stand on Ukraine, gas purchase, when coports and PU3-shores. To underline the recent stages laken by the government to promote investments at a value at swell as the powernment to promote investments at a value at swell as the powernment to promote investments at a value at swell as the powernment to promote investment and the powernment to prome union mainteers. However, Mandhany and Hardres Stagh mark ulake, Manders in Mandhan, and Marken Sangh participating in the event. Industry leaders and the promote like that that promote list at a value, reformits and grow-ing common yeapeelahy sajant the backdrop of the war in Ukrain-cent and the promote list at a value, reformits and grow-ing commony expecially sajant the backdrop of the war in Ukrain-cent of good manop many business callers as a negative state. The World dire human consequences from the fragmentation of the global enderts are in Gering for a consolic lutter. The World dire human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic, human consequences from the fragmentation of the global manetic developmentation and the second memory and the second the second the second kernetic out and and there pro-signation. The fragmentation are second memory consequences and there worth the fragmentation are not word that ha

other nations. Several Indian CEOs as well as government leader feel that there is a strong need to focus on creating necessary infra

structure for fighting any future pandemic and also to effectively defeat the existing one. The government leaders and their associ

ates are also confident that India will be able to tell the world that

their approach towards the Ukraine crisis has been the most bal-anced, even as a vast majority of the world leaders are expected to

take on Russia strongly for waging the war. The unfolding politica situation in India in the run up to the Lok Sabha elections of 2024

and various state polls before that, would also be of keen interest for the global leaders.

Workforce being

crushed between

inflation & joblessness

Raj, the particities and other domestic and external nations of under it impact and the government seemed to be stupefield. Rethinking on its old wrong priorities was required but the centre continued with them, and in several cases vigorously followed them. The worsening market condition with price rise and inflation and labour market de-

ansion in employment) in the count of the unemployed in April 2022 April 2022 also saw a 2.3 million increase in the count of those wh

stated that they were unemployed and were willing to work if wor was made available to them but were not actively looking for employ

nent. The count of these rose to 19.5 million in April 2022. The agr ulture sector shed 5.2 million jobs in April. Part of this decline

of the wheat crop, and the consequent decline in wheat production. Wheat production is expected to have fallen by between 10 and 20

per cent this year because of intense heat wave. It is a very serious concern, and the Centre has already banned exports of wheat to

woid food insecurity of the country. Since the recent rise in CPI infl

tion was chiefly due to rise in prices of food articles, the wheat pro duction fall indicates that its prices will increase in near future which

may push up the prices of rice also due to shift in demand. The fur ther rise in inflation can thus not be ruled out.
